

MF-NC

PROFESSIONAL PWM FAN

SPECIFICATIONS

Fan	1x 120mm
Connection	PWM 4pin
Voltage	DC 12V
Current	0.3A
Noise level	10dBA
RPM	800-2300 ± 10% RPM
CFM	79.04 CFM
MTBF	70.000 hours
Bearing type	Hyperbalanced copper core FDB
Dimensions	120x120x25 / 181g

120mm PWM fan with hyperbalanced core copper and FDB bearings, hybrid blades design of high airflow and static pressure.

Antivibration pads and thick frame with PWM connector for a silent operation and maximum stability.
